

# Stratis Pallets for Heidelberg Logistics Presses

Heidelberg Logistics Presses in Format 6 or 7	XL 145 - Pallet Logistics	XL 145 - Pallet Logistics	XL 145 -Pallet "Board" Logistics	XL 162 - Pallet Logistics
<b>Stratis Automatic Pallet Part Number</b>	P145RS145-Arf (newest version)	P143RS143-Ab (original version)	P143RS143BRD-AHD	P164RS164-Ab
<b>Description</b>	Plastic Pallet Slotted Top, Full 4-way entry, RFID Ready!, Deck-Lok, Banding Holes, Internally Steel Reinforced, Hand holes, Stretch Wrap Retention Wings, Food Grade Green	Plastic Pallet Slotted Top, Full 4-way entry Deck-Lok, Banding Holes, Internally Steel Reinforced, Hand holes, Strata-Lok, Stretch Wrap Retention Wings, Food Grade Blue	Plastic Pallet <u>Board</u> Slotted Top, Deck-Lok, Banding Holes, Internally Steel Reinforced, Stretch Wrap Retention Wings, Food Grade Blue	Plastic Pallet Slotted Top, Full 4-way entry, Deck-Lok, Banding Holes, Internally Steel Reinforced, Stretch Wrap Retention Wings, Food Grade Blue
<b>Dimensions Metric</b>	146 x 106 x 17.3	143 x 103 x 17.3 cm	143 x 103 x 7.6 cm	164 x 120 x 17.5 cm
<b>Dimensions Inches</b>	57.7"x 41.9"x 6.8"	56.3"x 40.6"x 6.8"	56.3" x 40.6" x 3"	64.6"x 47.2"x 6.9"
<b>"25-25" Slots for Automatic Press Feeds</b>	Yes (30mm slot depth)	Yes (25mm slot depth)	Yes (25mm slot depth)	Yes (25 mm slot depth)
<b>Pallet Weight Metric</b>	34 kg.	31 kg.	24 kg.	43 kg.
<b>Pallet Weight Pounds</b>	74 lbs.	68 lbs.	52 lbs.	94 lbs.

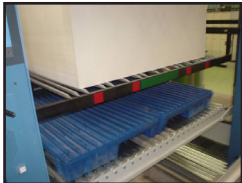

## Important Comments and Features

Dynamic load capacity exceeding 2500 kg. and static exceeding 4000 kg.

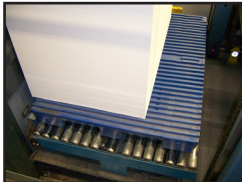

Designed for pressroom automation and tested for many years in the Fully Automatic Non-Stop Feed Sheetfed Carton and Commercial Printing industries with full loads.

Compatible throughout the industry with patented features to ensure greater reliability when minor mishaps occur (like bumping a press or conveyor).

Precise "Widening slots" from the center allow for important 25-25 style slot positioning but relaxes practical tolerances for sword insertion.

Deck-Lok™ Safety Stacking Feature allows safe and neat stacking and transportation of empty pallets while maximizing the surface area in the nesting areas to help prevent embossing of sheets. Tested successfully and safely since 1993.

Molded-in internal steel reinforcement.

Rackable in many un-supported pallet racking systems with virtually no deflection.

Stretch wrap retention wings - slight extension on corners to help hold wrapping in place around pallet load.

Beautiful color to maximize "Wow" effect for pressroom tours.

Hygienic - USDA - FDA - HACCP Approved plastic and colorants for direct contact with food.

Many additional options available for different systems and situations.
